## MRS. PRITCHETT WAS IN CHICAGO.

She Has Returned and Is Now Living at the Home of Her Father.

Mrs. Calla Pritchett, who, with her little daughter, Vivian, left her home at No. 2000 January 21, and went to Chicago without notifying her husband, parents or friends of her intended departure, has returned to Benton and is living at the home of her father-in-law, John Pritchett, of No. 6759

The manner of Mrs. Calla Pritchett's leaving was, at the time, the subject of considerable comment among her friends. Up to the day of her departure she had never binted of her intention of going to Chicago. On the morning of the day she disappeared she wrote a note to a neighbor, Mrs. Baumann, declining the latter's invitation to a suchre party for that evening, and in exnation of her inability to attend stated that she was to leave for Chicago the same night. She packed her trunks, had them hauled to the Union Station, and boarded a train for Chicago, where she remained nearly a month without disclosing her address. When seen yesterday she refused to make any statement as to her future plans, and declined to say whether she had been teaching in a young ladies' seminary in Chicago in her absence from St. Louis, as was reported here.

## "SWEET" EATERS.

Way to Correct Children's Taste.

Sometimes children become willful and refuse nourishing food, demanding sweets, candy, ice cream, etc., much to their detriment. It is a great help in such cases to have a food that is naturally sweet and attractive. A case in Philadelphia will illustrate. attractive. A case in Philadelphia will filustrate.

The daughter of Mrs. M. E. Scarles, living at 1230 Miffiln street, was a delicate child from infancy and had been indulged in many things. She gradually got thinber and more fretful daily, refusing food other than sweets, etc., finally contracting whooping cough which undermined her health to such an extent that her attending physicians agreed that her cough had developed into bronchial catarrh, and that only a short time would ensue before consumption would relieve her sufferings.

In despair, the child's aunt was sent for, and knowing the wonderful nutritive value of Grape-Nuts food, she prepared some and induced the little one to eat it. At the first taste she said: "Oh auntie this is so nice, I want some more." From that time the child acquired an appetite and began to improve. She was fed on Grape-Nuts steadily until now she is a perfectly healthy, strong child, attends the Girls' Grammar School, and is a right and apt pupit.

### GAS EXPLODES IN SIR FRANCIS COOK **ELECTRIC CONDUIT.** DYING IN LONDON.

Short Circuit Nearly Causes Death | He Married the Famous Tennie C. of William Ryan and Two Other Workmen.

A short circuit of electric wires in a conduit yesterday afternoon caused an ex-plosion of sewer gas, in which the wire workers only escaped miraculously from

As it was, William Ryan of No. 6615 Fyler avenue was severely burned, and the air about Seventeenth street and Franklin ave nue was filled with smoke and flame. Ryan, with his brother John and a helper, had been sent out by the Imperial Electric Light and Power Company to investigate some trouble with its underground wires. It was necessary for one of the men to descend into a manhole while the others held his tools and otherwise assisted him from the surface. William Ryan went down into

the surface. William Ryan went down into the hole, in scraping one of the wires at which he was at work he laid it bare of insulation and the short circuit resulted. Great sparks played from wire to wire, then the whole conduit was a volcano of smoke and fire, through which Ryan merged more dead than alive. His brother and helper, who had been standing at the mouth of the manhole, were scorched by the flames, which shot high into the air.

The injured men were sent to the office of Doctor H. W. Soper, at No. \$12 North Eighteenth street, where their burns were dressed. William Ryan was then sent home, but the other two were able to resume their work.

## HAVE PREPARED ONE THOUSAND WARRANTS

Kirkwood Authorities Still After, Taken Up in the Senate, but Did, Suburban Officials for Alleged Violation of City Ordinance.

The officials of the town of Kirkwood are preparing to issue 1,000 warrants against the officials of the Suburban Railroad for an alleged daily violation of a city ordi-nance since December 11, 1899. The warrants have already been drawn up in blank form and only need filling out, which will be attended to as soon as possible. A county printing office was kept busy one night recently getting out the blanks, and also a similar number of blank bonds, in order to give the officials an opportunity to pre-

vent going to jail 1,000 times. Fifty-eight of the warrants have already been issued against Charles H. Turner and

been issued against Charles H. Turner and Manager Thomas M. Jenkins. They were arrested by Town Marshal Secrest of Kirk-wood last Thursday and gave bond to appear for trial next Thursday.

The ordinance passed December II, 1899, forbids street railway companies from operating cars without a license for any purpose except passenger traffic. The passage of the ordinance was the result of a fight made on the company by the citizens of Kirkwood on account of an order dividing the St. Louis and Meramec River line into two divisions, thereby compelling the patrons to transfer at Maplewood, much to their inconvenience.

The Suburban officials did not pay any attention to the ordinance, and when Manaser Jenkins was first arrested they went before Judge Hirzel in Clayton and obtained an injunction to restrain the Town

tained an injunction to restrain the Town Board from enforcing the ordinance. The town officials appealed to the Supreme Court, and the injunction was recently dis-

solved.

The ordinance imposes a fine of from ES to \$160 for each and every offense, or a term in jail, or both. It is directed, not only against the officials of the company, but against any one who is in any manner connected with the operation of the cars. The company has been running two mail and express cars each day through Kirkwood since the ordinance went into effect, and the officials estimate that there have accordingly been 1,000 offenses committed. The imposing of the maximum fine would result in the increase of the town revenues by \$100,000.

Not Reach the Point of a Vote.

REPUBLIC SPECIAL.

Washington, Feb. 16.—In the Senate to-day Mr. Hale presented the diplomatic and consular appropriation bill and gave notice he would call it up early next week.

Mr. Jones of Arkansas introduced a resolution providing that the Judiciary Committee be discharged from further consideration of the anti-trust bill; that the Senate proceed to its consideration. Under the rules it went over for one day.

The ship-subsidy bill was then taken up and laid aside.

The oleomargarine bill was taken up in its place by a vote of 45 to 2.

After a little over an hour's consideration of the measure it was laid aside in order that unobjected bills on the calendar might be considered. Nearly 300 bills, including 157 private pension bills, were passed during the day.

A POOR BREAKFAST.

Very Few People Eat a Good Break-

"All I want for breakfast is a roll and "All I want for breakfast is a roll and a cup of coffee."

This remark is heard not only in hotels, restaurants and lunchrocurs, but it is the usual breakfast order in the home circle as well. After a twelve hours' fast it would seem that the first meal of the day should be a hearty, substantial one, and if we all lived natural, unartificial lives, it would be so, but none of us do, hence breakfast is a mere pretense.

lived natural, unartificial lives, it would be so, but none of us do, hence breakfast is a mere pretense.

Says a latter-day philosopher: "During many years of active business life, I never remember having eaten a good substantial breakfast but supposed it was of no importance until I began to lose appetite for lunch and dinner.

"My physician told me I was a victim of nervous dyspepsia, and must take rest and recretation as no medicine would reach the trouble, but this advice I could not follow, as my business affairs would not permit it, and to get relief I resorted to medicines and prescriptions and it was purely ascidental that I hit upon one remedy which did the business. While in a drug store one evening I noticed a number of people buying Stuart's Dyspepsia Tablets, a widely advertised preparation for stomach troubles, and the force of example was too much for me and I bought a fifty-cant package.

"I took a tablet of two after each meal, and in a week my appetite picked up, I began to feel my old ambition for work returning and could eat a good breakfast, because I wanted it, and from that time to this, I take Stuart's Dyspepsia Tablets as regularly as I take my meals, not because I now have any trouble with my stomach, but because I don't want to have.

WESTERN INCENDIARY CAUGHT.

New York Police Believe They Have One of Chicago's Firebugs. REPUBLIC SPECIAL

New York, Feb. 16.—Within forty-eight hours of the receipt of a warning from Chi-cago, the New York police to-night arrestcago, the New York police to-night arrested a man they believe to be a member of the fineendlary band which recently has alarmed the Western metropolis by firing several of the principal hotels in that city. The man under arrest gave the name of Robert Taylor, and he was caught prowing along the roof over the Palm Garden of the Imperial Hotel, at Thirty-second street and Broadway. In his pockets was found a large quantity of matches. The prisoner is a negro. He refused to give any information concerning himself. The watchman of the hotel says he saw the man make his way from window to window, peering into one after another.

When placed under arrest the negro made a show of resistance, but was quickly overpowered.

When taken to the police station Detective McMullen said that he firmly believed the man was one of the Western firebugs about whom he has been warned. There was no attempt made to rob the room in which the negre was caught.

DEMAND EQUITABLE RATES. Cotton-Baling Companies Will Lan

igate in Texas.

REPUBLIC SPECIAL.

Austin, Tex., Feb. 15.—Suit was filed to day by a number of companies known as "The Round-Bale Companies" against the Railroad Commission of Texas, asking that the court enter judgment to force the commission to repeal certain orders that the companies claim discriminate against them and in behalf of the companies known as "The Square-Bale Compress Companies."

The petition states that the commissional allows the same rate per 160 pounds to charged for the cotton compressed by the round-bale system that is charged for the cotton compressed by the system reaches a density of forty pound to the cubic foot, while the latter reached only about twenty-two and one-half pound to the cubic foot.

The petition claims that the annual cotton crop of Texas consists of about 2,000,000 hales, averaging 500 pounds per bale.

At that the profit made by the railroad companies is excessive. The petition further asks that the Railroad Commission be made to adjust rates so that they we be alike fair to both systems of compresses. igate in Texas.

OPPOSING CHARTER BILL Opposition to Measure Intended to

Relieve Galveston. REPUBLIC SPECIAL.

Austin, Tex., Feb., 16.—There was very life the doing in the legislative circles to-day, there being no session of the Senate and the House confining itself to the consideration of local bills purely. It was expected that the Galveston charter bill, which seeks to place that city in the hands of a commission, refund its present debts and issue new bonds for a rebuilding of the wrecked city, would be heard to-day, but it has developed that there is a formidable opposition to the consideration of the measure, and, in the hopes of gaining strengthy delay, the bill was postponed until new Saturday. Saturday.

There has been considerable opposite developed over the proposition to omit taxes for the next fifteen years as it been clearly shown that only the rich whenefit thereby. It is anticipated that fight over this measure will be one of bitterest waged in a long time.
